

Aviv Tenenbaum Haddar

Full-Stack & Game Developer

Modi'in, Israel • avidth@gmail.com • [GitHub](#) [Portfolio](#) [LinkedIn](#)

SUMMARY

Software engineering student driven to build polished web and Unity products, with a strong foundation in full-stack development, IT, networking, and intelligence systems.

KEY PROJECTS

Personal Portfolio

React · Vite · JSX

Design. Code. Showcase.

A modern, responsive portfolio built to showcase my projects, skills, and experience. Features smooth animations, a dynamic project carousel, and a clean UI focused on clarity, performance, and developer-friendly structure.

League of Beans

C# · FPS · Multiplayer

Fast-paced FPS with champion-style abilities

Open-source FPS with fast gunplay and MOBA-style champion abilities, featuring distinct characters and chaotic, skill-based arena combat.

Men DAY

C# · FPS · Multiplayer

Multiplayer FPS in Active Development

Men DAY is an open-source Unity multiplayer FPS featuring fast combat, recoil, ADS, weapon sway, and modular weapon systems. Actively developed with a growing technical foundation and multiplayer focus.

Technology Specialist

Sep 2020 – Apr 2023

Israeli Military Intelligence

Provided advanced technological support within an intelligence unit, covering IT maintenance, web development, and network/security operations.

- Maintained and supported critical IT systems and services.
- Contributed to web application development and internal tools.

Lead Tech Specialist

Apr 2023 – Nov 2023

Israeli Military Intelligence

Led a technical support team, coordinating infrastructure operations and improving reliability and processes.

- Led a team delivering technical support and operational readiness.
- Oversaw infrastructure, security posture, and virtualization improvements.

Tech Specialist Consultant & Instructor

Dec 2023 – Mar 2025

Israeli Military Intelligence

Provided consulting and training, including curriculum creation and operational leadership for technical initiatives.

- Delivered training and built technical curricula for new personnel.
- Led optimization initiatives and advised on implementation planning.

Technology Specialist

Aug 2025 – Present

Israeli Military Intelligence

Ongoing technical role supporting systems, projects, and operational requirements.

- Supporting technical operations and internal tooling as needed.

Freelance IT Support

Feb 2017 – Jul 2019

Fiverr

Provided remote IT support for clients, troubleshooting software, hardware, and networking issues.

- Resolved software/hardware/network issues with clear, fast communication.
- Helped with system optimization, security hygiene, and software setup.

EDUCATION & CERTIFICATIONS

Software Engineering Student

Oct 2023 – Present

The Open University of Israel

Web Structuring Course (HTML Certification)

Jan 2024 – Mar 2024

Programming Hub

- HTML & CSS
- Website structuring & optimization

Snunit (Atlantis) Course

Aug 2020 – Oct 2020

Israeli Military Intelligence

- Python
- PowerShell & Bash scripting
- Cisco
- Hardware
- Linux
- Windows administration

Commander Course

Jun 2022 – Jul 2022

Israeli Military Intelligence

- Leadership
- Teaching
- Team management
- Time management
- Presentation skills

Matriculation Diploma

Sep 2017 – Jun 2020

Ironi B named after Yitzhak Rabin Modi'in

- Java
- Web
- C#
- Python

TECHNICAL SKILLS

HTML

CSS

JavaScript

TypeScript

React

Node.js

Python

Java

Git

GitHub

FI Studio

C#

HOBBIES

- Web & game development
- Music production & remixing
- Exploring game genres for inspiration
- Sports & weightlifting

LANGUAGES

- Hebrew: Native
- English: Fluent
