

# Aviv Tenenbaum Haddar

Full-Stack & Game Developer

Modi'in, Israel • avivdth@gmail.com • [GitHub](#) [Portfolio](#) [LinkedIn](#)

## SUMMARY

Software engineering student driven to build polished web and Unity products, with a strong foundation in full-stack development, IT, networking, and intelligence systems.

## KEY PROJECTS

### SemorIQ

Next.js · TypeScript · Supabase

Plan smarter. Study better.

A full-stack academic planning SaaS built with Next.js, Supabase, and Tailwind. Features semester management, course tracking, Kanban task boards, collaborative notebooks with a canvas editor, real-time presence, Google OAuth, i18n support (English, Hebrew, Spanish), and a freemium billing system. Deployed on Vercel with Cloudflare DNS.

### Personal Portfolio

React · Vite · JSX

Design. Code. Showcase.

A modern, responsive portfolio built to showcase my projects, skills, and experience. Features smooth animations, a dynamic project carousel, and a clean UI focused on clarity, performance, and developer-friendly structure.

### Out of Phase

C# · Unity · First-Person

Dimension-switching cyberpunk detective game

A first-person Unity investigation game where you shift between five overlapping dimensions to solve puzzles and track an interdimensional killer. Focused on immersive exploration, layered environments, and a distinct cyberpunk atmosphere.

- Led a team delivering technical support and operational readiness.
- Oversaw infrastructure, security posture, and virtualization improvements.

### Freelance IT Support

Feb 2017 – Jul 2019

Fiverr

Provided remote IT support for clients, troubleshooting software, hardware, and networking issues.

- Resolved software/hardware/network issues with clear, fast communication.
- Helped with system optimization, security hygiene, and software setup.

## EDUCATION & CERTIFICATIONS

### Software Engineering Student

Oct 2023 – Present

The Open University of Israel

### Web Structuring Course (HTML Certification)

Jan 2024 – Mar 2024

Programming Hub

- HTML & CSS
- Website structuring & optimization

### Snunit (Atlantis) Course

Aug 2020 – Oct 2020

Israeli Military Intelligence

- Python
- PowerShell & Bash scripting
- Cisco
- Hardware
- Linux
- Windows administration

### Commander Course

Jun 2022 – Jul 2022

Israeli Military Intelligence

- Leadership
- Teaching
- Team management
- Time management
- Presentation skills

### Matriculation

Sep 2017 – Jun 2020

### Diploma

Ironi B named after Yitzhak Rabin Modi'in

- Java
- Web
- C#
- Python

## TECHNICAL SKILLS

## HOBBIES

- Web & game development
- Music production & remixing
- Exploring game genres for inspiration
- Sports & weightlifting

## LANGUAGES

- Hebrew: Native
- English: Fluent
